U/18 Girls: A Team: Mokgadi Mangena, Jamela Maswanganyi, Felicity Baloyi. B Team: Emma Melville (below right)

LANCE TRUEMAN – RISING STAR CRICKETER

Over the past cricket season Lance represented Aces Cricket Club in the 1st Division (Premier League) in the regional 50-over tournament. Lance was the youngest player in the Premier League, playing in 9 matches. He scored 334 runs, his highest score being 126 at an average of 37.1 per innings. His bowling figures were just as impressive. Bowling a total of 84.4 overs which included 8 maidens, he took 24 wickets and delivered an economy rate of 4.9 runs per over. Lance was selected as the Aces best bowler and overall player of the year on Friday night. In addition, at the annual Limpopo Impala Cricket Provincial Awards Ceremony, Lance was selected as the best bowler in the Capricorn district as well as best overall player in the Premier League. A rising star indeed! Watch this space, Proteas!

GRADE 9 SKILLS WEEK A VARIETY OF ACTIVITIES KEPT THE GRADE 9S BUSY THIS PAST WEEK

On Monday the Grade 9s had Aptitude Testing with Lianza Pretorius, a Psychometrist from Polokwane

On Tuesday & Wednesday, they had a course in etiquette training with Riandi Conradi, owner and trainer at the South African Etiquette Academy in Johannesburg. The students were given an overview of how to conduct themselves in a variety of scenarios from potential job interviews to fine dining, from travelling the world to how to say an off-the-cuff thank you speech.

On Thursday, the students engaged in a number of activities requiring problem-solving skills, teamwork and tenacity in a Growth Mindset workshop. The focus of this was “win or learn” in the context of the Round Square Discovery Framework Discoveries.

On Friday, there was Subject Choice workshop. The focus of this is: “What am I good at and what do I enjoy?” With subject choice looming for Grade 10, the Grade 9s need to make difficult life choices without really understanding what the long term realities of those choices may be. We spent some time looking at how to think about their current skillset and then researching what institutions require from them in order to study particular courses.
